PUTTING YOUR HEALTH FIRST

Diagnostic Healthcare is an advanced diagnostic screening facility offering screening services unrivalled elsewhere in the North West.

Located in the heart of Altrincham, the new clinic provides technologically advanced diagnostic screening services designed to reduce the risk of debilitating diseases for both NHS and private patients.

The clinic offers patients a complete body check-up and lifestyle plan that screens for major diseases and risk factors of cardiac disease, stroke, diabetes, cancer and more – all at surprisingly reasonable prices, making this expertise accessible to all.

The clinic provides a very comprehensive range of tests (over 50 different tests), including Well Woman, Well Man and Well Child packages. The clinic also provides a special package to meet the needs of corporate clients as well as specialising in screening for sports injuries.

Other specialist tests, such as the Bone Density scan using a state-of-the-art DEXA machine,

are available (this method is normally only accessible in certain hospitals). This is particularly helpful in detecting potential problems such as osteoporosis which affects one in every two women and one in every five men over 50.

Ultrasound screening for detecting abnormalities in various organs for example lungs, heart, kidneys, bladder, liver and ovaries is preformed by qualified radiologists. Ultrasound is also an important tool to assist the diagnosis in breast abnormalities and to plot progress during pregnancy.

Exercise ECG and resting ECGs are available as well as simple blood

tests and comprehensive allergy testing, which can be tailored to meet the client's requirements.

Appointments can be booked immediately. Flexible opening hours of morning, evening and weekend appointments are available to suit a busy life style.

Results are ready within 24 hours of consultation and can be provided digitally on a CD.

The combination of highly qualified medical professionals, relaxed atmosphere, and state-of-the-art equipment makes the experience a pleasant one.

For more information and to book an appointment, call Diagnostic Healthcare on 0161 929 5679 or log on to www.diagnostichealthcareltd.co.uk
