

# Diagnostic imaging

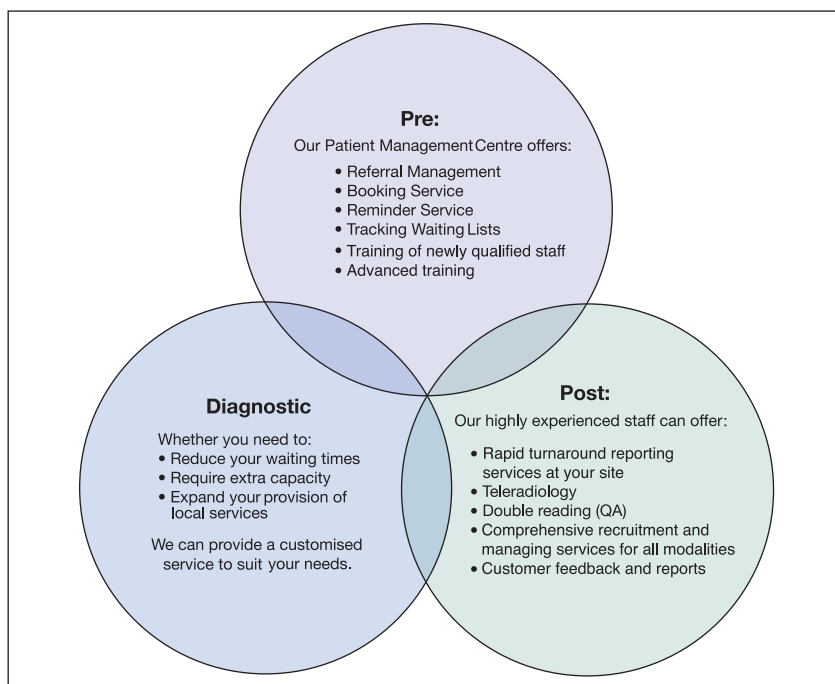

A flexible service based on 20 years' experience . . .

**D**iagnostic Healthcare Ltd has the ability to help when the need to reduce healthcare costs – coupled with the increasing pressure to be more accountable – is taken into account, while still maintaining the very best standards of healthcare provision.

Diagnostic Healthcare Ltd comprises a network of centres, committed to providing excellence in the field of diagnostic imaging. The company draws on a wealth of experience from a team that has provided diagnostic services in the UK and abroad for over 20 years. The company provides MRI, ultrasound, bone density scanning, health screening, cardiac testing and reporting services.

By offering end-to-end solutions, we have the flexibility to provide high quality modern efficient mobile services as well as having the capacity to locate within hospitals, GP surgeries or alternatively dedicated community accommodation for the delivery of excellent scanning or reporting services, always ensuring best value for money.

We recommend tailored solutions from a range of customised

diagnostic services before, during and after the service.

One of the Healthcare NHS Trusts in Greater Manchester is one such client that has benefited from our services: "In both these schemes, I was impressed by the speed with which Diagnostic Healthcare was able to set up quality responses. The patient survey done as part of the contract was well thought through, and showed that patients appreciated the service and surroundings of Diagnostic Healthcare."

Our ethos is reflected by a combination of high quality diagnostic services, professional personnel, high quality patient care and excellence in customer services (for patients and users) while, at the same time, being backed by flexible 24/7 capability and access to a network of global telemedicine consultancy expertise.

We value the patient experience and excel at providing a fast access service

in order to further improve waiting times at all stages of the pathway.

Together with our professional team and consultants, we would like to work in improving the health and wellbeing of the population in north-west England. Our team believes in long-term public private partnerships and therefore sees itself as one that has constantly to understand and fulfil its partners' developing needs.
