

Diagnostic Healthcare is one of the largest independent sector companies delivering clinical imaging services to the highest standards of quality and safety.

We are the largest specialist CBCT service provider in the UK with 12 clinics across the country, working with over 3,000 regular referrers.

We are a partner to the NHS with over 15 years' experience of working across both primary and secondary care sectors and the private market supporting the full patient pathway from online booking imaging, reporting and staffing capacity.

## Why Choose Us

- Consistently high patient experience scores of over 96%.
- A track record of delivering over 350,000 examinations per year.
- A strong record of repeat business.
- Fully integrated with IT systems from the first patient
- Fully managed patient pathway including triaging, booking, scanning and reporting
- System configuration to align with Trust department procedures and protocols.
- First line engineering support with minimal downtime.
- Dedicated in-house project management team to design, build and implement services
- Competitive commercial offers including capital investment to suit specific needs and requirements.
- Extensive national coverage enabling operation from multiple sites across the UK.
